OVER THE YEARS

Commentaries based on cataloging over 300 sales (including **the Largest A.N.A. ever held-1977**) and 50 years collecting-since 1928.

My Golden Anniversary Sale held in conjunction with the Central States Convention, May 12-14 in St. Louis is now history. It was fun cataloging some "old friends" (outstanding coins handled once, twice and in a few instances even four times during my years as a professional numismatist). They seem to acquire a personality of their own—and are further enhanced by the ongoing pedigree.

Don and I look forward to renewing friendships and making new friends at the MWNA Convention. The many dedicated workers who make these conventions possible deserve special recognition. They truly "live numismatics" and enjoy sharing their knowhow and pleasure with others.

The **BOOM** in numismatics continues with new records being set at every sale held in the country. We would love to buy (at a profit) many of the coins and currency sold in our A.N.A. Sale last August. The emphasis on quality still continues but we cannot help but feel that AU and EF are now undervalued. Nice specimens in these grades are no longer plentiful. We are particularly interested in obtaining choice Proof Gold and Early Gold for two valued clients. Also scarce and choice currency for others.

The value of the A.N.A. Authentication Service produced an unexpected dividend in the Golden Anniversary Sale with the discovery of some new varieties, double and recut dates, etc. We urge everyone to make more use of it-IT PAYS! The photographs and accompanying certificates help provide a pedigree and are invaluable in case of theft.

GRADING STANDARDS

We use Dr. Sheldon's numerical grading system for the grading of U.S. Coins. This is the system that has been used with great success by sophisticated numismatists for many years and now adopted by the A.N.A. We use the following abbreviations and descriptions:

POOR-1: Barely recognizable as to type.
FAIR-2: Showing minor detail.
AG-3: About Good-3, Rims worn down into lettering but interior detail will be visable.
GOOD-4,6: All interior outlines visable.
VG-8,10: Very Good 8 and 10, About 25 percent of the interior detail will be visable, date barely readable.
FINE-12,15: 30 per cent to 50 per cent of the interior detail will show.
VF-20,25,30,35: Very Fine 20 thru 35, 60 per cent to 85 per cent of the interior detail will show. 35(Borderline EF).
EF-40,45: Extremely Fine 40 and 45, 90 per cent of all interior details will show.
AU-50,55: Almost Uncirculated 50 and 55, Bare traces of friction at the highest points. 55+(Borderline Unc).
UNC-60: Mint State (MS) 60, strictly Uncirculated with no rub or friction, i.e. NO WEAR.
CHOICE BU-60+: Mint State (MS) 60+, a Choice Uncirculated specimen nicely struck and with nice lustre.
GEM BU-65: Mint State (MS) 65, a Gem coin in all respects. Fully struck. Only a bare minimum of minor abrasions.
Superb GEM BU-65+: Mint state-65+, If you look real hard with strong magnification you might find a flaw.
Perfect GEM-70: Mint State-70: Once in a great while a perfect coin is sold.
PROOFS & SPECIMENS: Proof and Specimen are methods of manufacture, not grades. All of our Proofs, Specimens, and Proof-Likes are graded in the same manner as our business strikes (examples: Proof-55, Proof-60, CHOICE Proof-60+, GEM Proof-65, SUPERB GEM Proof 65+.

HOW TO BID*

What to Bid On:

As you read through the catalog for the first time, record the numbers of all the lots you are interested in on a worksheet. If you are interested in specific types of coins, be sure to check the catalog index.

How Much to Bid:

The price you bid is determined by you. You must remember the value that you place on the coins. Check the values listed in the catalog and decide what you are willing to pay. You should bid generously on the lots you strongly wish to obtain. If there are some lots you would like to have 'if the price is right', then you may want to place nominal bids on those lots. Because a number of collectors choose to bid on many lots, the number of successful bids will be relatively small. This is controlled by a very active market. You can safely extend your bidding (and take advantage of a 'bargain') by placing a dollar total limit on your bids. Should your total be reached before all your bids are executed, we will then terminate your bidding.

Remember that your bids are limits. It is possible, and quite often does occur, that you will succeed in purchasing a lot for less than your bid since we start the floor bidding at about 5-10% above the second highest mail bid. Example: You bid $500.00 on the lot and the next highest mail bid is $400.00, we start the lot bid at $425.00. If there are no bids from the floor, you will then be awarded the lot at $425.00 - or if the floor bidding stops at perhaps $450.00 or $475.00 then you will receive the lot at a small advance above the top floor bid. If bidding continues above the $500.00, then that floor bidder will be awarded the lot.

How to Fill Out the Bid Sheet:

On the Bid Sheet you will observe that there are two different column headings. Lots and Bids. When you decide on the lots you want to bid on, enter the lot numbers under the proper column and the maximum amounts you are willing to pay for those lots in the proper column.

LOT	BID	LOT	BID
482	550.00		
517	900.00		
614	130.00		

If you have checked one of the increase boxes, you will be allowing us to increase your maximum bid in order to obtain the lot which is going for more than you had anticipated. We will buy the lots for you as low as possible as outlined in the TERMS OF THE SALE.

YOU ARE THERE

Mail bidding allows you to participate in the sale without being present. A.M.(Art) or Don Kagin will act as your personal representative at the auction. This is the same as you being there! Historically, auctions have been the best method of obtaining rarities for your collection and generally securing coins most economically. A.M.(Art) or Don Kagin are available for personal consultation. We hope your bids are successful.

PROOF 1836 REEDED EDGE HALF DOLLAR

608. 1836 **PROOF WITH "SQUARE" RAISED EDGE & FULL SHARP STRIKE!** Lovely iridescent toning but close examination reveals just the faintest rub on highest points. Verified by Walter Breen who states *"proofs were made before the business strikes; the tiny die crack from rim r. of final S is smaller on the proofs than* on the business strikes." About a dozen are said to exist although only 9 or 10 are actually known (including those impounded in museums, institutions, etc.). Breen lists a 5 year old record of $3,200 (before the big rise in values), however we did note one since at $10,000. It will be interesting to see what this - THE LOWEST REGULAR COINAGE HALF DOLLAR (only 1200 total struck for circulation, plus the few proofs) now brings. Who knows how many more years will elapse before another proof is offered.

Undervalued compared to the more "common" dates. We note over the years that "undervalued" coins have a habit of eventually being "discovered." Part of the fun in collecting is the search for "undervalued" coins and then relishing the satisfaction of having them when they finally "arrive."

Quite popular with new records being set - particularly in the higher states of preservation.

Lots 725-1384

$1 1795 Type I, Flowing Hair Borderline Unc.

725. 1795 TYPE I, FLOWING HAIR, Nice Sharp Strike with Full Stars, bold hair but close inspection reveals just the faintest rub on cheek and central hair strands. The reverse is also quite bold with deep edge serrations, the very top eagle's breast feathers show just the barest rub. A lovely lustrous bluish golden, surprisingly free of any abrasions which seem to plague these large coins. **We do not believe this coin was ever in circulation** but reposed in a coin cabinet over the years. When the owner would on occasion, lovingly inspect his "treasures", the inertia of this beauty would cause it to slightly shift in the cabinet and cause just the faintest rub (hence, the old-time description of "cabinet friction"). VERY DIFFICULT TO NOW FIND THIS CHOICE! We note dealers are offering to pay $5,500 (CDN) for only AU but none seem to have been available. Surely this popular type in the present strong market worth upwards of 7,500.

$1 1797 TYPE II, Draped Bust, Small Eagle

726. 1797 9x7 STARS, SMALL EAGLE, Large Letters, **lovely brilliant golden Sharp Struck with Full Stars and Deep Edge Serrations,** Bolender 1b variety with some interesting die breaks (the few faint thin lines on obv. give the appearance of die breaks), the tiny imperfection at T in LIBERTY appears to have been caused by an impurity in the planchet at time of manufacture. The reverse is unusually sharp with the breast feathers defined. **Only the slightest friction *(from reposing in the old-time coin cabinet?)* removes this remarkable specimen from FULL MINT STATE!** It will be difficult to obtain a choice specimen. We doubt if a full mint state specimen particularly so sharp struck (if it were available), could be obtained at the catalog value of only $10,000; surely this highly desirable one worth over half.

727. 1796 VG-10, Very Good, small date, Large Letters. Cat. 350.

728. 1798 SMALL EAGLE, 13 STARS, **EF-40** Sharp Extremely Fine with attractive deep blue and golden luster. Acquired as "About Unc." at $1,950; while we catalog this 5 points less, it is a greatly undervalued Rarity and could now approach its cost. How many have you seen?

1895-S AUTHENTICATED (BREEN) PROOF $1

741.1895-S "CAMEO-SHARP" Strike with ALL BREAST FEATHERS CRISP AND SHARP AS ON REGULAR "P" MINT PROOFS! In fact, the knife-sharp hair detail, edge and deep mirrorlike surface and other striking qualities are that of a PROOF rather than any "prooflike first-strike," or "presentation-piece" we have seen or heard of. **ABSOLUTELY SUPERB, MERITOUS OF THE ULTIMATE ACCOLADE, "MS-70 PERFECTION"!!!** The lovely multi-coloring is almost incredible: Sea-green, pink, golden, russet, blue. Truly, "A COIN OF MANY COLORS".

Breen (Encyclopedia of U.S. Proofs) lists *"Two seen (*this is one he authenticated*), a third reported"* without any valuation. He also lists the 1893-CC Proof as *"12 Struck, 3 known, a 4th reported"* with a record of $18,000 at Jan., 1973 FUN sale.

The 1895-S is MUCH RARER AS A DATE as well as being SUBSTANTIALLY RARER AS A PROOF. We note the 1922 Proof (5 known) was offered in 1977 at $50,000. What then should this MUCH RARER 1895-S PROOF be worth in this muchstronger market? The 1893-S in Mint State has brought $35,000 as far back as 1973 with a number changing hands since then. Surely there can only be a loose comparison between the value of an 1893-S which comes upon the market occasionally and this 1895-S PROOF WHICH HAS NEVER APPEARED AT AUCTION PREVIOUSLY.

Since Morgan dollars are now the most popular series, THIS IS THE RAREST MORGAN DOLLAR -THUS, "THE RAREST OF THE MOST POPULAR!" The proud new owner can thus reflect that ***NO COLLECTION OF MORGAN DOLLARS CAN EQUAL THE COLLECTION CONTAINING THIS!***

Arizona and New Mexico's entrance to the Union as states in 1912 occasioned the change from 46 stars (states) to 48 stars. Only 149,824 struck compared to millions for other dates. Perhaps the delay in Congress granting statehood lead to the small coinage.

PERSONALIZED INVESTMENT SERVICE

Many auction bidders ask us for advice on how to invest in rare coins. Collectors who are building specific collections often ask which dates to buy first, or which condition of coin is best for them to obtain, etc. Other bidders ask us simply for the "best opportunities for investment."

In response to these requests, we have developed the Kagin Numismatic Investment Program — a program which differs from all others.

You receive the personal attention and service of A.M. (Art) and Don Kagin who work with you to develop an individually-designed program that will meet your specific needs.

A.M. Kagin is a professional numismatist who has been active in numismatics for more than 50 years.

Don Kagin is the recipient of the first degree conferred in numismatics.

We will personally service your account, making suggestions for acquisitions and making sure your collection meets your individual needs.

Kagin's is particularly noted for:

U.S. currency—We edit and publish the **Donlon Catalog of Large Size U.S. Currency 1861 to 1923.** Our currency Investment Program includes only **Choice** and **Superb** Notes selected from the largest inventory of U.S. Currency available.

Pioneer and Territorial Gold—Don Kagin is currently writing the book that will be the new guide for Pioneer and Territorial Gold. When the book is published, rarity ratings will be drastically changed on a number of coins, and there will be fewer "bargains" available.

Whether you wish to collect specific coins or to make general investments, our Investment Program offers you the following additional services:

Inclusion in Keogh Retirement Plans and Individual Retirement Accounts
Pension Funds
Numismatic Tax Counseling
Personal Consultations
Personalized programs designed to fit your individual needs.
